TRS MANUFACTURER WARRANTY CONDITIONS

These terms and conditions are in accordance with the regulation in Law 23/2003 of 10th July of Warrantees in the Sale of Consumer Goods.

TRS guarantees the buyer (hereinafter referred to as the “Customer”) a vehicle manufactured by TRS to the highest quality in materials and production, delivering a product free from any defects. Therefore, TRS will guarantee the customer the repair free-of-charge of any defect in material or production identified in a new vehicle while the relevant warranty term is still in force and without taking into account the number of kilometres travelled or the number of operating hours of the vehicle.

EFFECTIVE PERIOD

It is considered that the warranty is effective from the day of delivery of the product to the Customer, or from the day on which the vehicle is used for the first time in the case of demonstration models. The seller shall be liable for the possible faults or defects of their product during the period established in Law 23/2003 of 10th July of Warrantees in the Sale of Consumer Goods from its delivery and in accordance with Directive 1999/44/EC for the other Member States of the European Community (outside the European Community the warranty period defined by the regulations in force in each Member State will apply). Note that any failure or defect of the product that occurs in the first six months after its delivery shall be considered as an existing initial defect and after the sixth month, the Customer must prove that the defect existed at the time of delivery. In the event that the warranty period ends on a Sunday or a public holiday, it will be extended to take in the following working day. The warranty shall only cover any claims made for defects during the effective period of the warranty.

REQUIREMENTS TO PUT THE WARRANTY INTO EFFECT

TRS reserves the right to reject warranty claims if:

- 1) The vehicle has been incorrectly transported or stored, by not following the manufacturer's recommendations.
- 2) The vehicle has been used competitively, pushing it beyond its normal operating limits.
- 3) Parts and/or any kind of service fluids unauthorised by the manufacturer have been used as substitutes in vehicle service or repairs.
- 4) The services or maintenance required for correct operation of the vehicle have not been performed within the effective warranty period or, if faults have appeared prior to the date of a required service, it has not been carried out, or has been carried out after the established time frame.
- 5) Any service or maintenance operations have been carried out by persons unauthorised by TRS.
- 6) Any repair or maintenance work carried out that does not comply with the requirements specified for that operation by TRS.
- 7) The vehicle or any part thereof have been modified without the authorisation of TRS.
- 8) The vehicle has been damaged through misuse and/or an accident.

PARTS OR ITEMS CONSIDERED OUTSIDE THE WARRANTY COVERAGE

- 1) Maintenance operations and cleaning of the vehicle.
- 2) Any kind of service fluids (coolants, lubricants, etc).
- 3) Noise or aesthetic defects which do not affect the use of the vehicle (such as marks or damage in inconspicuous areas, noises without any important mechanical consequences, etc.).
- 4) Damage to the bodywork due to external agents (extreme environmental conditions, impact from objects, etc).
- 5) Additional costs resulting from the defects themselves (transport costs, cranes, costs of replacement vehicles, lodging, etc).
- 6) Wear of paint or plastic due to the passage of time.
- 7) All kinds of parts subject to wear and tear due to their use (batteries, filters, discs or brake pads, tyres, etc).

OTHER CONSIDERATIONS

- I) The right is reserved to request assessment by a TRS expert if there are any doubts regarding the need to repair a defect during the warranty.
The warranty covering the spare parts will end on the date of expiry of the warranty period of the product concerned.
- II) TRS reserves the right to decide whether to repair or replace the parts in a warranty claim.**
- III) In the event that there is a defect that cannot be repaired or where it is difficult for the company to provide a replacement, the customer shall be entitled to compensation due to the termination of the contract or to the partial refund of the price paid for the vehicle.
- IV) The guarantee offered by TRS as manufacturer does not include claims on aspects related to the sale of the vehicle that are exclusively concerned with the dealer offering the product. These claims must be addressed directly to the dealership.
- V) The warranty coverage shall be for the period established by the manufacturer, regardless of whether the vehicle is resold to another user during that time. The new user will have the same warranty conditions until the expiry of the period determined from the date of the first sale.

PRE-PURCHASE INSPECTION MADE ON THE VEHICLE

	Check for any damage to packaging and product
	Remove the outer packaging
	Install the parts and remove the packing
	Clean the motorcycle
	Fork
	Preload suspension
	Steering bearings
	Swing arm bearings
	Linkages-rocker arm system
	Chain tension
	Air filter
	Tyre pressure
	Adjustment spokes
	Adjustment screws
	User manual
	Tool kit
	Fill in warranty documentation

	Drive
	Clutch fluid level
	Oil level
	Coolant level
	Brake fluid level
	Check adjustment clutch lever
	Check adjustment brake lever
	Check adjustment brake pedal
	Check adjustment accelerator
	Check operation accelerator cable
	Check the leads and positioning
	Routing of the carburettor overflow pipes
	Check operation steering
	Check idle speed
	Lights
	Horn
	Door mirrors

	Set of tools
	Warranty
	User manual
	Vehicle fits the order
	Warranty instructions and manual accepted
